

Welcome to the ORATS Earnings Move Report!

The goal of this report is to analyze movement in stocks around earnings.

Earnings Effect is calculated from past moves during earnings compared to normal moves in a stock.

Implied is highlighted if one standard deviation over-RED (below-GREEN) the ORATS projected volatility.

ORATS divided by Implied readings above 100% show under(over) valued second month implied volatility.

*Indicates a special situation. Contact matt@orats.com or AIM smanhattan for details.

Welcome to the ORATS Earnings Move Report!

The goal of this report is to analyze movement in stocks around earnings.

Earnings Effect is calculated from past moves during earnings compared to normal moves in a stock.

Implied is highlighted if one standard deviation over-RED (below-GREEN) the ORATS projected volatility.

ORATS divided by Implied readings above 100% show under(over) valued second month implied volatility.

*Indicates a special situation. Contact matt@orats.com or AIM smanhattan for details.

Welcome to the ORATS Earnings Move Report!

The goal of this report is to analyze movement in stocks around earnings.

Earnings Effect is calculated from past moves during earnings compared to normal moves in a stock.

Implied is highlighted if one standard deviation over-RED (below-GREEN) the ORATS projected volatility.

ORATS divided by Implied readings above 100% show under(over) valued second month implied volatility.

*Indicates a special situation. Contact matt@orats.com or AIM smanhattan for details.

Date	Reporting#	AvgEffect
1/16	4	228%
1/17	33	197%
1/18	44	206%
1/19	59	212%
1/20	10	224%
1/23	31	216%
